Pearland, TX | (951) 651-5511 | destiniecwarren@email.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Operations professional with a track record of managing high-volume, compliance-driven data across federal, financial, and government-regulated environments. Experienced in data classification, validation, reconciliation, and Excel-based reporting with a strong focus on accuracy, audit readiness, and workflow optimization. Skilled at working independently in remote settings, handling sensitive information with discretion, and delivering clean, structured data that stakeholders can actually act on.

CORE COMPETENCIES

Data Processing & Classification	Data Validation & Reconciliation	Excel Dashboards & Reporting
Compliance & Audit Readiness	Workflow Optimization	Quality Assurance (QA)
Confidential Data Handling	SLA Management	Staff Training & Documentation

PROFESSIONAL EXPERIENCE

Employment & Wage Verification Specialist (Remote) <i>Thomas & Company</i>	January 2026 – Present
- Validate employment credentials — including job titles, dates of employment, and compensation history — to support financial, lending, and leasing decisions. - Prepare official employment verification letters and process third-party verification requests in compliance with FCRA, DOT, and I-9 regulations. - Detect and flag falsified employment history, wage claims, and credential discrepancies as part of active fraud prevention protocols. - Update and manage automated payroll and employment verification systems to ensure data accuracy and system integrity. - Support current and former employees in generating verification documentation for lenders, landlords, and financial institutions. - Coordinate with employers and agencies to resolve data inconsistencies while maintaining strict SLA turnaround requirements. - Organize and document verification results to ensure audit readiness, structured reporting, and ongoing regulatory compliance. - Handle sensitive personal and financial data with full confidentiality in accordance with applicable privacy and data protection standards. - Served as first-point-of-contact via live chat for employees, lenders, and government agencies — handling VOE inquiries, portal account setup, system troubleshooting, and general service questions in real time.	
Data Evaluation / Data Entry Specialist (Remote) <i>The Harris Center for Mental Health and IDD FEMA/SAMHSA Federal Grant</i>	August 2024 – August 2025
- Processed and classified 10,000+ federally regulated records at approximately 1,000/week with near-perfect accuracy. - Extracted, validated, and reconciled data from multiple sources to ensure federal reporting accuracy and consistency. - Built Excel dashboards to track processing volume, error rates, and outcomes for compliance monitoring and leadership reporting.	

- Standardized documentation workflows across teams, reducing errors and improving data consistency at scale.
- Performed quality assurance checks prior to system entry, ensuring all records met federal completeness and compliance standards.
- Delivered data-driven insights to stakeholders to inform operational and reporting decisions.
- Trained staff on structured data workflows, improving team accuracy and processing efficiency.

Customer Service & Operations Specialist

June 2017 – Present

ProStylez By Dezzy LLC

- Founded and operated an independent business, managing 600+ active client records with precision scheduling and documentation.
- Designed and maintained internal operational systems for client intake, scheduling, and record-keeping.
- Troubleshoot workflow and system issues in real time, maintaining detailed documentation throughout.
- Streamlined operational processes to reduce data entry errors and improve overall efficiency.
- Maintain strict confidentiality and accuracy across all client communications and business records.
