PROFESSIONAL SUMMARY

Detail-oriented Data Specialist with experience in data entry, database management, and information integrity. Skilled at processing large datasets, troubleshooting discrepancies, and ensuring compliance with policies and regulations. Adept in Excel, SQL, and data workflows with a strong track record of improving data accuracy and efficiency. Seeking to apply skills to support provider data integrity, claims operations, and healthcare compliance in a Provider Data Specialist role.

PROJECTS

Superstore Dashboard

Technologies used: Postgres, VS Code, SQL, and Tableau

- Built a Postgres - Tableau pipeline with reusable analytics views and scripted CSV exports for fast, repeatable refreshes. (PostgreSQL, SQL, psql)
- Designed a clean Tableau dashboard — KPIs, monthly Sales vs. Profit, Top Customers, discount impact, and a 0-center diverging heatmap — with per-sheet filters and K/% formatting. (Tableau Public)

Emergency Room Performance Dashboard

Technologies used: Excel, SQL, and Tableau

- Developed a Tableau dashboard visualizing emergency room performance data — including patient volume, wait times, and satisfaction scores — to identify peak demand periods. (Tableau, SQL)
- Delivered actionable insights to support data-driven staffing adjustments and improve patient experience in high-traffic clinical environments. (Healthcare Analytics, Operations Analysis)

WORK EXPERIENCE

Data Evaluation Specialist

Nov 2024 – Aug 2025

The Harris Center for Mental Health and IDD

Houston, TX

- Processed over 9,000 important data records for a federally funded disaster relief project. This directly helped deliver mental health and IDD services to more than 60,000 survivors.
- Improved team data workflows by creating and launching a well-organized digital filing system, with type-specific folders and focused revision tracking, along with a user-friendly Excel submission dashboard. These solutions reduced form search times by 75% and almost eliminated duplicate submissions, and improved efficiency by more than 200%.
- Wrote and presented detailed data reports using PowerPoint to key stakeholders. This helped them better understand outcomes and make informed decisions.
- Served as the main source for data support, resolving all data-related questions and technical issues for the team. This contributed to seamless data processing and project continuity.

Business Manager

July 2017 – Nov 2024

ProStylez by Dezzy, L.L.C

Bellflower, Ca

- Optimized inventory management by implementing a new system that reduced waste by 10-15% and improved ordering efficiency by 20%, leading to better stock control and cost savings.

- Analyzed customer demographics to refine marketing strategies, directly contributing to an increase in monthly revenue and significantly enhanced customer engagement.
- Designed and implemented a comprehensive KPI reporting system using Excel, providing critical insights into business performance trends and enabling informed decision-making for strategic growth.
- Managed all financial processes], ensuring timely payments and providing clear financial insights to maintain the business's overall health and profitability.

Front Office Clerk

Nee Nee's Nursery

Feb 2015 - May 2017

Lynwood, Ca

- Efficiently processed high volumes of information and correspondence, ensuring accuracy, completeness, and timely updates to support team operations and reporting requirements.
- Maintained meticulous digital and physical records by accurately organizing, filing, and updating data, enabling quick retrieval and reliable information management.
- Demonstrated strong organizational skills and attention to detail in managing administrative and data-related tasks, reducing errors and improving overall workflow efficiency.
